

ASSOCIATION CINEMAS ET CULTURES D'AFRIQUE

The 17th *Cinémas d'Afrique* festival will take place in Angers from April 2nd to 7th, 2019.

This Festival is organised by the *Cinemas et Cultures d'Afrique* association. The aim is to develop cultural exchanges with the African continent.

The Cinémas d'Afrique festival is an important event in France as it allows to discover recent films from the continent. There is a wide selection of films realised these last two years and a program dedicated to a young audience. It is not only a meeting place between people working in the cinema industry and the public. It is also an open space where people can exchange about the world of cinema. In fact, there are professional workshops dedicated to broadcasting.

Selected films

The festival presents a selection of films only directed by African filmmakers from the entire continent, the association wants to enhance Africa and its cultures through its own eyes.

The selection is established after a preview of the films from the two last years and from the Fespaco 2019 in Ouagadougou. There is no precise subject, the aim of this selection is to show diversity through fiction films, cartoon films, documentary films, only on digital version. The film is hired by the beneficiary.

The movies chosen for the official selection will be shown twice during the festival and a third time if awarded a prize.

Those not retained will be placed in the video library of the association and made accessible to all the professionals during the festival.

Festival's Guests
